Skills

Next.js, React, Redux, Zustand, Prisma, Cypress, HTML, CSS, SASS, Tailwind, Typescript, JavaScript, C#, .NET, Entity Framework, Python, Git, Microservices, REST API, Unity, PostgreSQL, MongoDB

Education

Wrocław University of Science and Technology (Politechnika Wrocławska)

- **Bachelor of Engineering in Computer Science - 06/2022**
- Bachelor thesis - Evolutionary Optimization of Algorithms Controlling Non-Playable Characters in Games (C#, Unity)

Throughout my education, I gained proficiency in several programming languages, including Java, Python, C++, C#, Scala, Ocaml, and JavaScript. Additionally, I completed multiple coursework in project management and software engineering.

Experience

Rigby • Frontend Engineer (freelance)

08/2023 - Present

Next.js, React, Typescript, Javascript, HTML, SCSS, E-commerce, Headless CMS, Figma

I contributed to the development of e-commerce solutions for clients such as **Unitra** (Unitra.com) and **Platyna Marketplace** (Platyna.pl). My responsibilities included webapp page development and seamless integration of **Medusa.js** headless CMS with the web applications. In this projects I was focused on providing rapid performance of these webapps, prioritizing a good customer experience.

Devnet • Software Engineer

05/2022 - 08/2023

.NET, Python, PostgreSQL, MongoDB, RabbitMq, Azure, React, Microservices, Design patterns

I contributed to a project aimed at creating software for **automated energy trading** within European markets, by maintaining and expanding the system by developing new **microservices**. My notable **accomplishment** involved creating a Python script for complex data manipulation, optimizing testing processes. This efficiency improvement resulted in cost savings and allowed us to allocate more time to address real-time challenges.

Sellintegro • C# Junior Engineer

07/2021 - 10/2021

.NET, SQL, Vbscript, Javascript, Docker

I played a key role in the development of a product that facilitated the **integration of e-commerce and ERP systems**. I joined specialized division of the company dedicated to delivering premium customer service to our largest clients. Within this team, I directly engaged with clients and crafted tailored software solutions to meet their unique requirements.
